

FORMA Glass Aluminium Canopies

Engineered to the same proven specification as leading European glass canopy systems, The FORMA Glass aluminium canopy delivers excellent strength, weather resistance, and long-term durability.

The toughened glass panels allow natural daylight to flood the space below while maintaining a solid, secure feel in all weather conditions.

For complete peace of mind, we proudly provide a comprehensive 10-year guarantee across our full range of FORMA aluminium canopies — protecting your investment in the years ahead.

Each aluminium canopy is manufactured using premium-grade aluminium and high-performance roofing systems, carefully selected for their strength, weather resistance, and longevity.

The FORMA Glass canopy is a sleek, architecturally styled aluminium canopy system featuring a 6mm toughened safety glass roof.

Designed for homeowners seeking a refined, permanent outdoor structure with maximum light and a clean, contemporary finish.

Each FORMA Glass canopy is professionally measured, manufactured, and fully installed by our experienced installation teams, ensuring a precise fit, correct structural fixing, and a flawless finished appearance.

The slimline aluminium framework provides a minimalist look while offering reliable performance for everyday outdoor living.

The most effective way to appreciate the quality, design precision, and craftsmanship of our aluminium canopies and carports is by visiting our dedicated showroom in Ripon, North Yorkshire.

Within our showroom, you can explore a wide selection of contemporary aluminium structures up close, allowing you to compare styles, finishes, roof options, and structural details in person.

FORMA Glass XL Aluminium Canopies

Engineered to an enhanced structural specification, the FORMA Glass XL aluminium canopy offers increased load capacity and rigidity compared to standard glass canopy systems, making it ideal for wider projections and exposed locations.

The toughened glass panels allow maximum natural light to flow into the space below while maintaining dependable protection from the elements.

For complete peace of mind, we proudly provide a comprehensive 10-year guarantee across our full range of FORMA aluminium canopies — protecting your investment in the years ahead.

Each aluminium canopy is manufactured using premium-grade aluminium and high-performance roofing systems, carefully selected for their strength, weather resistance, and longevity.

The FORMA Glass XL aluminium canopy is a strengthened, heavy-duty glass roof system designed for larger spans and more demanding installations.

Featuring a 6mm toughened safety glass roof, it delivers outstanding clarity, structural integrity, and a refined architectural finish.

Ideal for larger patios, outdoor entertaining areas, and premium residential projects.

The FORMA Glass XL is a fully installed aluminium canopy system built for strength, clarity, and lasting performance in the UK climate.

The most effective way to appreciate the quality, design precision, and craftsmanship of our aluminium canopies and carports is by visiting our dedicated showroom in Ripon, North Yorkshire.

Within our showroom, you can explore a wide selection of contemporary aluminium structures up close, allowing you to compare styles, finishes, roof options, and structural details in person.

FORMA Glass XL PLUS Aluminium Canopies

Built to an advanced structural specification, the FORMA Glass XL Plus delivers exceptional rigidity and durability, making it particularly suited to wider spans and more exposed environments.

The toughened glass panels provide outstanding clarity, allowing natural daylight to flow freely beneath the canopy while offering reliable protection from wind and rain.

For complete peace of mind, we proudly provide a comprehensive 10-year guarantee across our full range of FORMA aluminium canopies — protecting your investment in the years ahead.

Each aluminium canopy is manufactured using premium-grade aluminium and high-performance roofing systems, carefully selected for their strength, weather resistance, and longevity.

The FORMA Glass XL PLUS aluminium canopy represents the most robust and structurally enhanced system within the FORMA collection. Featuring a 6mm toughened safety glass roof combined with an upgraded, heavy-duty aluminium framework, it is designed for larger projections, increased load performance, and high-end residential installations.

Each FORMA Glass canopy is professionally measured, manufactured, and fully installed by our experienced installation teams, ensuring a precise fit, correct structural fixing, and a flawless finished appearance.

The slimline aluminium framework provides a minimalist look while offering reliable performance for everyday outdoor living.

The most effective way to appreciate the quality, design precision, and craftsmanship of our aluminium canopies and carports is by visiting our dedicated showroom in Ripon, North Yorkshire.

FORMA Polycarbonate 16 Aluminium Canopies

Designed to the same proven specification as leading European polycarbonate canopy systems.

The FORMA Polycarbonate 16 provides a strong, rigid structure with reliable resistance to wind, rain, and temperature fluctuations.

For complete peace of mind, we proudly provide a comprehensive 10-year guarantee across our full range of FORMA aluminium canopies — protecting your investment in the years ahead.

Each aluminium canopy is manufactured using premium-grade aluminium and high-performance roofing systems, carefully selected for their strength, weather resistance, and longevity.

The FORMA Polycarbonate 16 aluminium canopy features a 16mm multiwall polycarbonate roof, offering an excellent balance of light transmission, insulation, and weather protection.

It is an ideal solution for homeowners who want year-round usability with improved thermal performance compared to glass roofing options.

Each FORMA Glass canopy is professionally measured, manufactured, and fully installed by our experienced installation teams, ensuring a precise fit, correct structural fixing, and a flawless finished appearance.

The 16mm polycarbonate panels help reduce glare and heat build-up while maintaining a bright, comfortable space beneath the canopy.

The most effective way to appreciate the quality, design precision, and craftsmanship of our aluminium canopies and carports is by visiting our dedicated showroom in Ripon, North Yorkshire.

Within our showroom, you can explore a wide selection of contemporary aluminium structures up close, allowing you to compare styles, finishes, roof options, and structural details in person.

FORMA Polycarbonate 35 Aluminium Canopies

Polycarbonate 35 provides a robust, structurally secure aluminium framework combined with a deep-profile, multiwall roof panel.

The increased thickness improves load-bearing capacity, making it ideal for wider spans and exposed locations.

For complete peace of mind, we proudly provide a comprehensive 10-year guarantee across our full range of FORMA aluminium canopies — protecting your investment in the years ahead.

Each aluminium canopy is manufactured using premium-grade aluminium and high-performance roofing systems, carefully selected for their strength, weather resistance, and longevity.

The FORMA Polycarbonate 35 aluminium canopy features a premium 35mm multiwall polycarbonate roof system, delivering exceptional strength, insulation, and all-weather performance.

Designed for homeowners seeking superior year-round comfort, this high-specification roofing solution offers significantly enhanced thermal efficiency and rigidity compared to standard 16mm option.

Each FORMA Polycarbonate canopy is professionally measured, manufactured, and fully installed by our experienced installation teams, ensuring a precise fit, correct structural fixing, and a flawless finished appearance.

The 35mm polycarbonate panels help reduce glare and heat build-up while maintaining a bright, comfortable space beneath the canopy.

The most effective way to appreciate the quality, design precision, and craftsmanship of our aluminium canopies and carports is by visiting our dedicated showroom in Ripon, North Yorkshire.

Within our showroom, you can explore a wide selection of contemporary aluminium structures up close, allowing you to compare styles, finishes, roof options, and structural details in person.
